

## 2023 FILM PROGRAM

**Maneuvers** - "Maneuvers (Manöver)" is an experimental animation combining skiing with stop-motion animation.

**Side Channels: Safeguarding Salmon** - Salmon are a keystone species whose survival is critical to ecosystem health. Explore some of the local conservation work being done in Tehama County to help safeguard salmon along the Sacramento River.

**Can't Beat This Place for Fun** - Flagstaff's Fretwater Boatworks defines the process, and deep conservation legacy, of building Grand Canyon dory's - with fun at every bend.

**If You Give a Beach a Bottle** - Sketching the tangled web of Marine Debris on Alaska's remote beaches.

**Oshkigin: Spirit of Fire** - Oshkigin: Spirit of Fire shows the ways that traditional fire uses can reconnect us with the land and preserve the natural world.

**One Star Reviews** - They say National Parks are America's greatest idea. Some of the most beautiful and sacred places in all the world. Well, for some people... there's still room for improvement!

**Sea Creatures Strike Back** - In this news broadcast parody, sea creatures "strike back" by subjecting humans to the same problems that we cause in the marine environment.

**Denizens of the Steep** - Denizens of the Steep explores the intersection of backcountry recreation and the conservation of an iconic species of big horn sheep in Grand Teton National Park.

**The Last Last Hike** - 83-year-old Nimblewill Nomad is about to become the oldest person to thru-hike the Appalachian Trail.

**Cormie: The Pickpocket Cormorant** - A rescued cormorant will go to any lengths to help her wildlife center stay afloat.

**Finding Salmon** - Follow 11-year-old, Keyona, into a wondrous world of trees, water, and friendly fish... and find the spirit of Salmon Watch, a program that connects Oregon youth to their backyard river ecosystems.
